REQUISITES FOR ADMISSION

INTO THE

ACADEMICAL AND UNDER-GRADUATE DEPARTMENTS OF THE UNIVERSITY.

APPLICANTS for admission into the FRESHMAN CLASS are required to sustain an approved examination on the Grammars of the English, Greek and Latin Languages ; Latin Prosody ; Andrews' or Arnold's Exercises ; Cæsar's Commentaries ; Ovid's Metamorphoses ; Virgil's *Bucolics*, and six Books of his *Æneid* ; Sallust ; St. John's Gospel and the Acts, in the Greek Testament ; Græca Minora, or Greek Reader ; Arithmetic ; Algebra, through equations of the first degree ; Ancient and Modern Geography.

Applicants for a more advanced standing will be examined on all the studies already pursued by the class they wish to join.

The Instructors in the Greek, Latin and Mathematical Departments have to complain that the applicants for admission are too often deficient in some of their preparatory studies. There seems to be a disposition abroad to diminish the very limited amount of reading that is now required in Greek and Latin. There is also a lack of due preparation in the Grammars, Prosody, and Construction of these Languages, in Grecian and Roman Antiquities, and especially in Ancient and Modern Geography. In the Mathematics more time and practice should be devoted to problems wherein the various rules of Arithmetic are involved with more or less complexity. Unless these suggestions are regarded, Students will be unable to secure the peculiar advantages of an education at the University. For the Instructors, instead of adopting such exercises as will mature the taste and scholarship of their pupils, will be obliged to return to the drilling of the Grammar School without its advantages for ensuring success.

To the teachers who are laboring to promote Classical and Mathematical learning by thorough elementary instruction we are already much indebted. We trust that our obligations to them will be still further increased, for on their efforts we must in a great measure depend for success in elevating the standard of Scholarship at the University.

The Department is supplied with a good stock of Chemicals and Chemical apparatus, and these are used throughout the course, not only to illustrate particular facts, but especially to throw light upon the general laws of Chemistry. Similar use is made of the Minerals and Fossils, which are put into the hands of the Students, who are thus enabled to become familiar with by critical inspection.

The Text-Books used are Draper's Chemistry ; Dana's Manual of Mineralogy ; Hitchcock's Elementary Geology, and Emmons' Manual of Geology.

The Independent Class is called on for recitations three times a week. The recitations of the College Class occur only twice a week, and are so arranged as not to interfere with the ordinary duties of College.

To the above items are to be added the expenses for clothing and pocket money, and certain others incident to a connection with the two Literary Societies. The cost of the whole series of Text-Books required in the College course, varies from \$40 to \$50. The above statement applies to those only who occupy rooms in the College buildings; those who lodge in the village are subjected to an additional expenditure for room rent and servant hire.

It is the duty of the Bursar (Prof. FETTER,) to receive on deposit the funds which a Student may bring with him, or which may be remitted to him, to disburse them in payment of necessary or contingent expenses, and to render an account of the same to parents and guardians at the close of each session. The Laws of the University require that every student shall, at the beginning of the session, settle the TUITION, &c., in advance; and the attention of Parents and Guardians is particularly directed to this regulation.

From what has been mentioned it will be seen what amount of money is necessary for the current expenses of a year. If the regulations of the Trustees and the "Act concerning the University," are strictly complied with, Parents and Guardians may feel confident that the expenses will not exceed those enumerated above. Pains will be taken to confine all the expenses of education within reasonable limits.

The Faculty are authorized in all cases where the applicant is a native of this State, sustains a correct moral character, is believed to possess good talents and studious habits, and is unable to defray the expenses of Tuition and Room Rent, to admit him free of charge into any class for which he may be prepared.
